

August 26th, 2019 | MCCCUC Renovation and Construction Update

We have been consistently impressed with the amount of progress we've seen on our North Building, and these last couple of weeks have been no exception. Over the next three weeks we anticipate that the roof and brickwork will go up and the interior will start getting framed out.

North Building Interior

Back of the Expansion

The expansion portion of the project is moving along just as swiftly, with a good portion of the brickwork having been completed and many of the new windows going in this past week. The construction team has many of the offices and other miscellaneous rooms framed out and, once the exterior work is wrapped up, will focus on getting that space ready for MCCCUC team members.
