

## July 10th, 2019 | MCCCUC Renovation and Construction Update

If you drive by 715 N. Telegraph, it's now very easy to see where our renovation and expansion project is going. However, this last week has also seen the most drastic piece of the internal renovation to date. Our old cubicle offices have been taken down and the carpet has been pulled up on the west side of the building, so that area of the building is certainly looking very different!

Expansion of Main Office

Lobby Waiting Area

Old Cubicle Office Space

In the next few weeks, there will be areas of the parking lot and lobby area that will be rearranged to accommodate the machinery required to complete this piece of the puzzle. As always, we appreciate your patience and understanding as we do our best to keep business moving as usual during this exciting time!
