

June 17th, 2019 | MCCCUC Renovation and Construction Update

Things are really starting to materialize behind our existing office. If you drive around the building, you'll be able to see the footprint of the expansion. We expect lumber to be delivered sometime within the next week and can't wait to see the new part of the building start to take shape.

Back of Building

Full Expansion Footprint

Expanded Parking Lot

On top of the changes happening at the back of the building, you can also start to see what the parking lot expansion will look like. This additional parking space will be beneficial both for our membership and to accommodate our local business partners when our community room is up and running in the North Building.
